### **Why Choose Us**

---

We offer students an opportunity to complete their practicum and internship requirements that compliment their academic training. In addition to the standard components of an internship, we also offer students a robust 16-week training program that focuses on skills, tools, policies, and overall professional development. At Crossroads Collective, we focus our internship program on graduate students, and may consider interns completing other programs such as diplomas. Following internship completion, students may be offered a paid position to work Fellowship position for an additional year with continued supervision and training in private practice. Following this two year program a counselor may be offered a paid position to work at Crossroads Collective as a fully licensed registered therapist.
